Problem/Solution: ¿Who is the best mechanic for my car? ¿Which plumber can come to my house after 10 pm? ¿Which math teacher can I afford? The world is filled with large information from business. But, which are the ones that are more suitable for me according to my needs?

With Llamame al mae you can find a solution by finding and quoting the exact services you

need with ratings and comments, from your smartphone or laptop.

Market: Only in Costa Rica there are 65 000 companies. Some large part of those are related to services and there are thousands of users searching for those services. We are launching in Costa Rica and want to expand to Latin America and then the world.

Target Audience: Every person who owns a smartphone or a laptop and needs a service tailored to their needs 😊

Next Steps: Launch the platform to start helping our users and clients and generate data.

Our why:

Spend time on what is really important, "Dejáte de varas, Llamame al mae"

We want to change the way people search, find and book services.
